Internships Available

**Community Schools, Community Engagement**
Remote w. Travel

Community Schools, Community Engagement at UCSC focuses on supportive meetings that bring together diverse stakeholders, including meetings with outreach via social media, scheduling, and other data in coordination, in order to help create a cohesive implementation plan.

**School Mental Health in Sacramento County**
Remote w. Travel

School Mental Health emphasizes the importance of analyzing the funding sources and policy trends in the local area of school-based mental health services, and how this data could help improve interventions.

**Childhood Literacy Program Evaluation**
Remote w. Possible Travel

Childhood Literacy Program Evaluation conducts original investigations using existing data from their literacy tutoring program to help develop measures and assess outcomes in order to provide student effect.

**Indigenous Language App Development**
Remote

The CRC is looking for a student who can support in the process of developing an Indigenous language app that will help provide services. They require the assistance of a student majoring in computer science, in order to cohesively work towards completion of the app.

**Social Media Educational Series: Community Economic Development**
Remote w. Possible Travel

The Educational Series: Community Economic Development centers on enchanting the livelihoods of CA community members by mending the bridge of communication between the community and the UC Cooperative Extension system. Through the use of social media, the goal is to create the communication system that will spear towards future sustainability.

**Social and Environmental Justice Through Social Media**
Remote

Leadership Counsel for Justice and Accountability (LCJA) was created to fundamentally shift the dynamics that have created inequality in California’s low income, rural regions.

**Assessing Equity in Research Funding**
Remote

Assessing Equity in Research Funding is currently working on a contract with CARB to assess how equitable their research grant process is through interviews, surveys, and a final report. The work is to help implement equality in the community advisory board.

**Community-Drive Environmental Justice Solutions at the Feminist Research Institute**
Remote

Community-Drive Environmental Justice Solutions focuses on the implementation of community-driven research project that brings IB leaders from across the nation to work with UC Davis researchers that create well-researched plans driven by community need.

**Multiple Projects, Much Latitude**
Remote w. Travel

The purpose of this program is to allow students to be engaged in billable consulting projects for public and private sector clients in California.
## Internships Available

### Environmental Health Sciences Center - EHSC Community Environmental Health Science Academy

Remote: Possible Travel

This 2022 CEHSA curriculum will focus on the science and environmental health impacts of air quality through an environmental justice lens and collaborations in science, particularly as it relates to environmental health research.

### Community-Academic Partnerships to Advance Equity-Focused Climate Action (CAPECA)

Remote: Possible Travel

CAPECA is a pilot that aims to augment the training of ten Californian place-based teams of community leaders and university researchers from the UC and CSU who work together to ask and answer key research questions that inform climate planning and action in their place.

### Sacramento City Nature Challenge CNC Fellow

Travel: Local

The global City Nature Challenge is a friendly competition among metropolitan areas, in which people submit observations of biodiversity through the iNaturalist application. Beyond learning about the biodiversity our cities share, one will be able to contribute valuable data to a global database.

### Telling of the Story of Sobering

Remote

Sobering centers give those experiencing acute public intoxication or substance abuse a place to safely sober up outside of jail or the emergency department. Interest in and research around the effectiveness of sobering centers continues to grow with a greater number of communities looking to pursue the opening of a center to help them to address widespread issues of public intoxication.
